

BayCEER Kolloquium

Lectures in Ecology and
Environmental Research

Winter 2024/25

UNIVERSITÄT
BAYREUTH

Thursday 12:15-13:45
H6, Geo

24.10.2024

Dr. Daniel Newman

Instituto Nacional de Biodiversidad de Ecuador (INABIO)

Richer than Gold: the fungal biodiversity of
Reserva Los Cedros, a threatened Andean
cloud forest

07.11.2024

Dr. George Metreveli

Environmental Geochemistry, BayCEER

Engineered nanoparticles in the environment
- Interactions, transformations, fate

14.11.2024

Dr. Ernst Gehrt

ehemals Landesamt für Bergbau, Energie und Geologie, Hannover (LBEG)

Kultosole in Niedersachsen (lecture is in ger-
man)

28.11.2024

Prof. Stefan Peiffer

Department of Hydrology, BayCEER

Effect of Global warming on Nutrient Limita-
tions in a temperate reservoir system

05.12.2024

Dr. Gian-Maria Bonari

Department of Life Sciences, University of Siena

- open -

09.01.2025

Dr. Bahar Patlar

Animal Ecology, University of Halle

Seminal fluid evolution in flies and honey bees

16.01.2025

Dr. Marina Scheumann

Tierärztliche Hochschule, Hannover

- open -

23.01.2025

Dr. Jana Jersakova

University of South Bohemia, Ceske Budejovice

- open -
