

Socio-Economic Drivers

**Block Seminar: 28 November – 1 December 2008,
Bayreuth University, GEO Building**

1 SWS, 1 ECTS

Participants:

This seminar is a required course for Global Change Ecology students as part of the A3 Module Phenomena and Actors in Global Change. Participation is restricted to GCE students only. Maximum number of participants: 25

Required course work:

Each registered participant will write a seminar paper of about 10 pages on a selected topic, following the basic guidelines for authors of the journal Land Use Policy.

During the block seminar, each participant will give an oral presentation of 15 minutes on the seminar topic selected. We will discuss each topic and practice moderation skills of students.

Introduction to the course and assignment of topics:

23 October 2008, 16.00 s.t. – 18.00, room: **S110 (AI)**

Deadline for registration to the course:

27 October 2008

Deadline for submission of seminar papers:

14 November 2008, 12.00 (noon)

Guest lecture:

The course will be introduced by a guest lecture, given by Dr. Cornelia Ohl, Helmholtz Centre for Environmental Research – UFZ, Dept. of Economics on 28 November 2008, 12.30 – 14.00

Block seminar schedule:

28 November 2008 14.00 s.t. – 20.00

29 November 2008 9.00 s.t. – 11.00

1 December 2008 8.00 s.t. – 13.00

Socio-Economic Drivers

Seminar topics

I. Drivers of change: Basic concept and development

1. The Driver-Pressure-State-Impact-Response-(DPSIR-) Model
2. The DPSIR-Model: A critical discussion from a social sciences perspective
3. Institutions – the individual and the society: Basic concepts in the social sciences

II. Discussing important socio-economic drivers

4. Demographic development: Population growth
5. Demographic development: Urbanisation and mega-cities
6. Demographic development: Migration and environmental refugees
7. Demographic development: Shrinkage patterns
8. Social drivers of change: Life styles and consumption
9. Economic drivers: Technological change and innovations
10. Economic drivers: Energy regimes and consumption
11. Economic incentives as drivers of change
12. Globalisation as driver of change
13. Culture and ethics as drivers of change

III. Impacts of environmental change

14. Infrastructure development and the fragmentation of landscapes
15. Trade and invasive species
16. Energy and food prices as drivers for land-use change
17. Subsidies and the fisheries sector
18. Climate change as a driver to social destabilisation

IV. Responses to environmental change

19. Institutions: Conventions, norms, and legal regulations
20. Environmental policies

V. Choose your own topic starting from Millennium Ecosystem Assessment 2005: Current State and Trends

21. Socio-economic drivers and your selected ecosystem service(s) (Ch. 7-17)
22. Socio-economic drivers and your selected system(s) from which ecosystem services are derived (Ch. 18-27)
