

## BayCEER Workshop 2014

October 2, 2014 at the University of Bayreuth

**We come together  
because...**

### Sessions

- 1 ...our subject is exciting and we like to share our ideas with others
- 2 ...we collaborate with other disciplines and learn from each other
- 3 ...we hope to get feedback on problems with our experiments and contradictory results

### Keynotes: New research initiatives at BayCEER

Hydrological niches: linking physiological and genetic basis with community consequences

*Prof. Bettina Engelbrecht*

Community- and ecosystem-level impacts of the invasive plant *Impatiens glandulifera*

*Prof. Heike Feldhaar*

### Important dates

**Abstract submission deadline**

**July 25, 2014**

Program announcement

September 15, 2014

Online registration

until October 2, 2014
