

# BayCEER Kolloquium

Lectures in Ecology and  
Environmental Research

Summer 2023

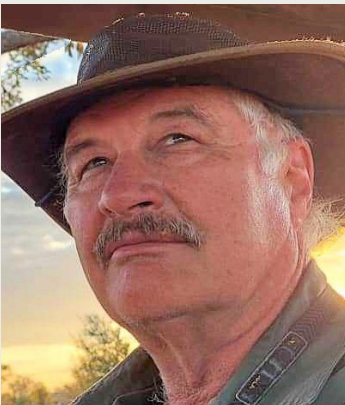

UNIVERSITÄT  
BAYREUTH

Donnerstag/Thursday

**06.04.2023**

**12:15 in H6, GEO**

## Dr. Richard E. Hoare

Wildlife Veterinarian, Zimbabwe and Botswana.

Member of the IUCN African Elephant Specialist Group (IUCN AfESG), IUCN Human-Wildlife Conflict Taskforce (IUCN HWC-TF) and IUCN Wildlife Health Specialist Group (IUCN WHSG).

Independent consultant to several conservation NGOs in Zimbabwe and throughout Africa.

## Human-Wildlife Conflicts (HWC) in Southern Africa

- Wild species which are problematic in conflicts worldwide will be listed and illustrated.
- International bodies that deal with HWC will be mentioned.
- Principles of HWC mitigation (that apply across many species) will be emphasised and explained.
- Case studies on the major HWC conflict species in Africa will be used to illustrate HWC mitigation measures in practice.
- Ways of evaluating the success of these HWC mitigation measures will be discussed.
- Topics for advocacy by researchers on national HWC policies will be discussed.
