

My idea for climate protection in the city of Bayreuth

Projekt Title:				
Area of interest:	<input type="checkbox"/> Energy Transformation / sector coupling	<input type="checkbox"/> Mobility	<input type="checkbox"/> Living, building and renovation / refurbishment	<input type="checkbox"/> Economy
	<input type="checkbox"/> Environmental education / information	<input type="checkbox"/> Sufficiency / Sustainability	<input type="checkbox"/> Food	<input type="checkbox"/>
Example for Best Practice from elsewhere?				

Description of project: What is the major idea in the project? Motivation and goals?

Stakeholders: Who should be involved in the project for a successful outcome? Who is the appropriate target group? (e.g. legal basis, ownership, options for funding, interested party,...), Which steps can be taken right away? What follows? How could the project be financed?

First steps: Which information needs to be acquired before beginning the project?

Please send your idea until July 31, 2021. Thank you!
